Mr. Phillip C. Ristow,
Corporate Counsel
Jefferson County Courthouse

Dear Mr. Ristow:

This is in regard to the outstanding judgment the County has against me. This judgment, although issued by the Court of Appeals, is fraudulent since it is based on the intentional disregard of several appeal records which show that I properly appealed the circuit court statutory costs and that therefore my appeal is NOT frivolous. The Court intentionally ignored these records so as to make my appeal APPEAR frivolous in order to award attorney fees of almost \$8,000 to the County. The judges on my panel are obviously very corrupt. Thankfully, two of them are now off the bench.

Jefferson County Judge Erwin has also proven herself to be very corrupt by refusing to obey the Court's order reducing the appellate statutory costs by about TWO-THIRDS. She was essentially forced to do so by the actions of one of the few HONEST people involved in my case, Ms. Carla Robinson, who forced Judge Erwin to do this by contacting opposing counsel Michele Ford, and somehow convincing her to draft a NEW order with the costs properly reduced. Judge Erwin signed this new order, demonstrating both the honesty of Ms. Robinson and the corruption of Judge Erwin. Before this occurred, I had sent a letter to Judge Erwin with a copy of the District IV Court Order reducing the appellate costs and had also filed a motion objecting to the costs, which shows that Judge Erwin INTENTIONALLY ignored the ordered cost reductions. If you will examine the circuit court statutory costs which were unlawfully taxed to me, and my objections to them, you will see that they are almost DOUBLE what is allowed by statute - as I stated in my appeal. Judge Erwin also signed the order awarding attorney fees in full view of the records which the District IV court ignored and even STATED did NOT exist.

Also, former Judge Ullsvik, another corrupt judge who unlawfully dismissed my case at summary judgment without even a hearing, unlawfully disregarded how Podratz parked and ruled that Podratz had immunity, when the disputed factual issue of how he parked determines whether or not he had immunity. I submit he did NOT have immunity since parking as he did endangered my and my wife's lives, as stated by Judge Koschnick in my criminal case against Podratz, and constitutes parking with a "reckless disregard" for safety, which is a violation of safety statute 346.03(5). This factual issue of his parking should have lawfully gone to a jury - NOT decided by a judge at summary judgment without even a hearing.

During discovery, Deputy Podratz lied under oath TWICE regarding how he parked his squad car, giving different versions each time, which also differed with another attending officer, Ms. Sharee Brost, whose signed report gives yet another version. All of these versions differ from those of my wife and I who saw first-hand that NONE of these versions are correct, and that Podratz actually parked his squad car at an angle in the left lane of busy freeway traffic with the rear-end of his squad extending into the middle of the lane of traffic, WITHOUT roof-top emergency lights, and after he had refused to follow an order to shut down the westbound lane of traffic as had been done with the eastbound lane.

I mention all of this, NOT in an effort to revive this case, but to show just how corrupt Jefferson County is. The question now is: how far up does this corruption extend into the County? Does it include your office and the entire Jefferson County Board? I certainly hope not, but I would like to find out by asking you to recommend to the County Board that this fraudulent judgment be reduced to only what the county is lawfully entitled: \$989 of circuit court costs plus \$278.50 of appellate costs, pursuant to the court filings. Please submit this recommendation to the County Board as soon as possible. It is noted that this does NOT involve the merits of this case, and would therefore NOT constitute any sort of admission of guilt or liability on the part of the County. It deals ONLY with the corrupt award of attorney fees and excessive circuit court costs by the Court of Appeals - to which the County is NOT lawfully entitled.

Why should the County do this? Because it is the RIGHT thing to do - as well as the HONEST and LAWFUL thing to do. I submit that the County should NOT profit from the corruption in our judicial system, and that the judicial system should NOT be used to extort money from the public for the benefit of government.

In making all statements in this letter, I am exercising my First Amendment right to freedom of speech.

Sincerely,

Owen S. Durgan

Re: Funding for Play Structure at Korth Park

Dodge-Jefferson
Healthier Community
Partnership

The Dodge-Jefferson Healthier Community Partnership understands that childhood obesity and the related health problems that carryover into adulthood, such as cardiovascular disease and diabetes, is a nation-wide problem that needs to be addressed through environmental and policy change such as bike paths and low cost recreational activities.

Local government officials are community leaders and can enact policies that support healthy community design.

By providing a play structure at Korth Park the County has an opportunity to provide low-cost recreational activities for families. A small investment in the park could help in providing a supportive environment for children and their families that prevent childhood obesity.

Preventing overweight and obesity requires addressing a variety of behaviors in multiple settings. Addressing the community-setting can be difficult, but important in terms of creating a supportive environment for residents where they live, work and play. Many studies suggest improved health behaviors are linked to healthy environments.

According to the Centers for Disease Control and Prevention policy and environmental change initiatives that make healthy choices in nutrition and physical activity available, affordable and easy will likely prove most effective in combating obesity. Recreation facilities provide space for community members to engage in physical activity and include places such as parks and green space, outdoor sports fields and facilities, walking and biking trails, public pools and community playgrounds.

**Health Consequences of
Overweight/Obesity**

- Coronary heart disease
- Type 2 diabetes
- Cancers
- Hypertension (high blood pressure)
- Dyslipidemia (high cholesterol or high levels of triglycerides)
- Stroke
- Liver and Gallbladder disease
- Sleep apnea and respiratory problems
- Osteoarthritis (a degeneration of cartilage and its underlying bone)

Regular physical activity can help individuals control their weight, reduce their risk of cardiovascular disease, type 2 diabetes and cancer, strengthens bones and muscles, improves mental health and mood, improves the ability to do daily activities and improves longevity.

Please consider supporting the installation of the play structure at Korth Park and invest in the healthy future of kids and families in Jefferson County.

RESOLUTION NO. 2010-____

Bid award and budget transfer for Courthouse backup generator project

WHEREAS, the 2010 budget designated \$140,000 in the General Fund for installation of a new backup generator to operate Courthouse systems in the event of loss of electrical power, and

WHEREAS, bids were solicited for a generator with the following results:

Midwest Electric LLC Johnson Creek, Wisconsin	\$115,700
Jefferson Current Electric, Inc. Jefferson, Wisconsin	\$125,320
Hogen Electric, Inc. Hartford, Wisconsin	\$110,900
Faith Technologies, Inc. Sun Prairie, Wisconsin	\$151,624,

and

WHEREAS, ancillary costs for engineering, builder's risk insurance and publication total approximately \$3,900, and

WHEREAS, the Infrastructure Committee recommends awarding the project to the low bidder, and the Finance Committee recommends transferring funds sufficient to complete the project,

NOW, THEREFORE, BE IT RESOLVED that the County Administrator is authorized to contract with Hogen Electric, Inc. in the amount of \$110,900 for installation of a generator.

BE IT FURTHER RESOLVED that the sum of \$114,800 is transferred from Account #100.354400 (Management Intent-Generator) to Account #1901.594810 (Capital Equipment).

Fiscal Note: \$140,000 was the project estimate at the time the 2010 budget was prepared. Engineering costs should total \$3,500. Builder's risk insurance is \$200. \$200 is allocated for publication of the bid documents. Adding the low bid amount of \$110,900 yields the total estimated cost, and the amount transferred, of \$114,800.

**2011 Budget
Jefferson County
Proposed Supervisor Amendment**

By Supervisor(s) Steve Nass

Amendment # 21

To amend the 2011 Recommended Budget, as amended by the Finance Committee,
I hereby propose:

Correction in Zoning Department budget to reduce Account #7101.699700 (Resv Applied Operating) by \$15,000 due to the fact that the same \$15,000 is already included in Account #7101.421001 (State Aid), and increase the levy by \$15,000 accordingly.

I estimate that this proposed amendment would increase the levy by \$15,000.
